**NOTICE**

**HIGH ALERT TO ALL FLAT/HOUSE OWNERS, SOCIETY**  
**SAFETY ALERT TRY TO BE SAFE!!!.**

The latest theft technology used by thieves. They go from house to house. They bear the stamp and letterhead of the Ministry of Home Affairs and claim to ensure that everyone has valid identity cards for the census.

Please share this information with everyone.... your neighborhood, groups, families. Spread the word.

They move everywhere and then they will come to your house and say that I belong to Ayushman scheme of Govt of India and want to take your photograph/fingerprints.

They have laptops, biometrics machines and data lists of all names like government officials have. They will show you all the data list names and ask for more information. This is all a scam. Do not share any information with them.

Tell family members and elders in your home and community not to allow them to enter your home even if they show ID. If any persons come to your house, contact the nearest police station.

THANKS
